A Workforce Management Technology Journal

We built SMARTpoint to be an economical workforce management terminal for those who require a comprehensive feature set, expandable memory, attractive design, and a color screen.

With a Linux or Windows operating system SMARTpoint delivers rich graphics and video on a 7" widescreen display. A reliable processor and expandable memory will allow users to interact with detailed content. Developers are now able to deploy their WFM software in a manner designed for the people who use it.

Users can easily navigate employee self-service functionality on the generously sized screen. Custom programs, web browsers, and other custom content have a new, more effective platform now. SMARTpoint offers exciting programming and content delivery opportunities

FEATURES INCLUDE:

- 7" Widescreen Display
- A Variety of Card and Biometric Readers
- Expandable memory
- Runs on Linux OS, or Embedded Windows
- Designed for value
